Dear Sir/Madam,

COMMENDATION FOR CHOW WEI KUAN, KAYDEN

It is my pleasure to write this letter of commendation for Chow Wei Kuan, Kayden, a student of good character and dependable work ethic whom I have taught in Biology during his time at Tampines Secondary School. I have come to know Kayden as a student who brings enthusiasm, resilience, and a positive attitude to his learning and interactions with others.

Kayden is a resilient and outgoing learner who works well with others and is always open to learning from experience. He can adapt and communicate effectively—qualities that are vital in today's fast-evolving tech-driven world. Whether in group work or independent learning, he displays a sense of responsibility and perseverance that often uplifts his peers and helps foster a productive learning environment.

Kayden has expressed interest in pursuing one of several dynamic courses at Temasek Polytechnic—Aerospace Electronics. His openness to these future-forward disciplines reflects both his versatility and eagerness to explore high-demand industries. He aspires to eventually become a successful business owner or professional who not only earns a good living but also stays grounded in values such as integrity, responsibility, and adaptability. These are traits he is consciously nurturing and already demonstrates to a commendable degree.

His approachable nature and ability to work across different personalities make him a strong team player—an asset in any collaborative setting, especially in fields requiring interdisciplinary cooperation and creative problem-solving. Kayden's vision of personal and professional success rooted in values shows maturity, foresight, and a deep sense of self-awareness.

I am confident that Kayden will thrive in the course he chooses at Temasek Polytechnic. He is motivated, open-minded, and possesses the right blend of soft skills and work ethic to succeed in a demanding academic environment. I strongly support his application and am certain he will be a valuable contributor to your polytechnic community.

Yours sincerely,

Mr Hafiz Bin Ahmad
Senior Teacher (Biology) / Level Discipline Master / Hon. VSC(I), SPF
